

Phila May 30/92

Col Oliver. C. Bosbyshell.

Dear Sir. Would you kindly give me the history of the two cypress trees in yard of "Mint", one of which has recently been cut down; with correct botanical name. I have a collection of some hundreds of varieties of woods, and recently received a small piece of the tree cut down in front of your Dept. Many of my specimens are of great historical as well as botanical interest.

It is my desire to make an exhibit of mosaic wood-work for "Chicago Fair". What I desire, is the correct name of species, where from, about what year, and who brought them to the U.S.; what ship etc. Any data which you may have at hand.

Very truly yours.

Constantine Horn.
